

# PSPs Guidelines

These guidelines are meant as a starting point as working on PSPs, in my opinion, means working on bespoke and art directed content. That said there are some things we need to have in place before we get started.

## Service worker

### Manual configuration

sw-precache / sw-toolbox

### Service worker Installation

## To indexedDB or not to IndexedDB

### Dexie installation

## Content

### Performance

### Accessibility

### Additional Plugins

### Typography modifications

## Testing
