

git hooks to keep code clean

```
#!/bin/bash
files=$(git diff --cached$(git diff --cached --name-only | grep '\.jsx\?')
exit 0
fi

failed=0
for file in ${files}; do
  git ${files}file in ${files}; do
    git show :$file | eslint $file
    if [[ $? != 0 ]] ; then
      failed] ; then
    echo "❌❌❌ ESLint failed, git commit denied!"
    exit $failed
  fi
  "❌❌❌ ESLint failed, git commit denied!"❌❌❌ ESLint failed, git commit
```
