Layouts Notes and Things to work on

- demo22.html

    - The footer runs into content at table sizes

- demo25.html

    - Needs a full responsive makeover. It doesn't work

- demo54.html

    - Fix font sizes for anything other than phone

- demo55.html

- demo56.html

- demo57.html

- demo58.html

- demo59.html

    - Move the left column either above or below the main text on Tablet and smaller form factors

- demo62.html

    - Move the text to the left in large width
    - Set it to display: block for smaller form factors

- demo65.html

    - Play with the title, possibly change font
